

Produce Auction

Buyer's Info

- MUST Check in at the office before every auction.
- Register for a Buyer/Seller Number (this is FREE) at the office, during operating hours, or via Phone. The number you are given will be your permanent number (for both Produce and Consignment Auctions). If any information, such as address or phone number, changes after registering, please notify us to update.
- To bid (in-person), it is IMPORTANT to pay close attention to the auctioneer and understand what you are bidding on.
- It is very helpful and appreciated at checkout if you write down what bids you won on the floor.
- The auctions begin with large lots and end with smaller lots.
- Each lot will have a tag that shows the Seller Number & quantity that the buyer is expected to take. (Example: Tag reads quantity as 6-12. This means the buyer can take no less than 6 boxes but up to 12 boxes for that lot. If the bid is at \$6, that means you will pay \$6 x the number of boxes you want to take.)
- When you are finished bidding, you can check out at any time, as long as all your items have been clerked into the system. The clerk sheets from the floor are brought to the office at the end of each row and then these sheets must be clerked into the computer. This typically takes 10-15 minutes.
- We accept cash, check & debit/credit (with a 5% transaction fee).

LOADING:

- After you have finished checking out:
- - Drive around back, hand your receipt to someone loading and they will collect and load the product for you
- We DO NOT want anybody to move product or load themselves without permission!!
